In seems probable that the retirement of the greenbacks will eventually become a national issue, like himstallism. Secretary Gage's plan is strictly for gold mono-metallism, drovs the retirement of the greenbacks and the taking of the Government out of the hacking business. The retirement of the preenbacks may be a nutshell, the taking of the money function out of the hands of the Government and placing it in the power of the hanking institutions of the country. The disminsal of the greenbacks would be the virtual taking of our finances out of the bands of the Government and placing them in the control of princing them is the principle that the principle is the principle that the principle is the principle in the principle in the principle is the principle in the principle in the principle is the principle in the principle in the principle is the principle in the principle in the principle is the principle in the principle in the principle in the principle is the principle in the principle in the principle is the principle in the princi tual taxing of our finances out of the bands of the Government and placing them in the control of private individuals or corporations.

What we want is a national currency, hacked by the resources of the country, and not a private mosely, opending solely upon the stalling of private corporations. This is what the people demand and the bank Democracy is in favor of as evidenced by the platform of 1896, which says:

"Couptres alone has the power to coin decided that this power could not be desired that the country of the least the desired that the country of the least the desired that the translation of the country of the least the desired that a maintive of the least the desired that a maintive of the least the desired that a maintive of the least the least the least the desired that a maintive of the least t

temp to comboneture suiver as a money of final redemption in the United States.

There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the sizes of money in this country.

The people have been deceived, officials in power, chosen to administer justice under the laws, have imported their sworm duty, and given add to the scheme that has paralyzed industry, reduced property values one-balf, and beggured millions. There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either specific or juvitee. The effort to make it so is unconstitutional and a mational calamito, facts, and ruth, concerning the simons successful scheme to corner the weight of the property of the state of the control of the following states.
